Sir

Re Shifting of High Voltage Transmission Lines, Mysore

I have the honour to forward herewith a copy of letter No 5890-92 dated the 14th November 1947 received from the Superintendent of Lines, Bangalore, addressed to the Chief Electrical Engineer to Government of Mysore, Bangalore, and to state that the subject was placed before the Board in their meeting held on 22nd December 1947 when the Board have resolved that Government may be requested to meet the entire cost since the layout formed in the area referred to in the above letter has been worked out as a self-supporting scheme and the amount realized by the sale of sites has been spent to meet the cost of forming the sites by way of forming roads, constructing drains and other allied works A copy of the Board's Resolution is enclosed herewith for kind information I request that the amount required for the shifting of the power lines may kindly be allotted as a grant for the Trust Board to meet the cost of the work under reference

I have the honour to be,
Sir,
Your most obedient servant,
N S Hirannayya
Chairman 27/12

HIGH VOLTAGE TRANSMISSION LINES- MYSORE

I have the honour to enclose herewith a blue print which shows the existing routes of the Mysore-Bhadravati Transmission Lines, Mandya Transmission line, and K R Mills line (low voltage lines) in the vicinity of Mysore City where the City Improvement Trust Board, Mysore, have proposed layouts for forming sites for dwelling houses

Last month, when I was carping at Mysore, I arranged for a joint inspection with the Superintendent, Power and Lighting, Mysore, and the Trust Board Asst Engineer If the Mysore-Bhadravati Transmission Lines will have to be deviated, we will have to deviate them at a very heavy cost (nearly Rs 50,000) and a considerable amount of compensation will also have to be given, as it is necessary to cut fruit yielding trees and make way for the transmission lines This point was made clear to the Trust Board Engineer and he was also agreeable (subject to the approval by the City Improverent Trust Board, Mysore) that Bhadravati transmission lines should be left as they are as the sites have not yet been formed in that area However, Mandya transmission line is cutting across the formation already done In fact, sites have been marked out and even sold to private parties Therefore, the Trust Board Engineer was of the opinion that it is absolutely necessary to shift the Mandya Transmission line suitably and avoid danger to dwelling houses and buildings which may spring up in the near future in that area I have, therefore, proposed to take the Mandya Transmission line route right along the foot path in Shivaji Road from the 6th structure to 16th structure thus avoiding the sites which have already been sold to the public by the City Improvement Trust Board As this line will have to be deviated for a length of about ½ a mile and fabricated steel structures will have to be used for want of suitable baligapoles, the cost of deviation is expected to be about Rs 15,000/-

Regarding Mysore-Sivasamudram transmission line, it is not possible to deviate them from their present route Therefore, it is necessary for the City Improvement Trust Board to leave about 60 feet on either side of the Transmission line from the last conductor and then form their layouts and sites This will mean that a corridor of about 200' will have to be left for both the Mysore transmission lines I have also brought this fact to the notice of the Asst Engineer, City Improvement Trust Board, Mysore The Power line to Krishnarajendra Mills will also have to be shifted slightly and taken along Kesare Road and therefore request that Superintendent, Mysore Power & Lighting, who is in charge of this may kindly be instructed to submit necessary proposals and furnish the approximate cost of deviating the Krishnarajendra Mills line

It may kindly be ascertained from the City Improvement Trust Board, Mysore, whether they are agreeable to pay the charges for deviating the Mandya Transmission line, which as I stated will be about Rs 15,000/- A detailed estimate will then be prepared and submitted

Docket Abstract

shifting of High Voltage Transmission Lines

Sir,

with reference to your letter No D 2 C 62/47-48 of 29-12-47 on the above subject I am directed to request you kindly to intimate the extension or expenditure involved in the proposed ~~shifting~~ of the ~~which~~ Transmission Lines are ~~proposed to be shifted~~ and the estimate for the formation of these extensions has been sanctioned by ~~you~~ in which case ~~it~~ the No and date may kindly be quoted

A rough plan showing the present and proposed arrangements and ~~the~~ may also be sent together with figures as to the amount of receipts by the entire extension of the works carrying still unused lines

It may also be stated why the heavy cost required for the shifting of the line was not provided in the original scheme when it was prepared & sanctioned & why the Govt obtained? this was an obvious fact & the expenditure could have been anticipated

***

Read

Government Order No L 8644-8/M1 38-47-10 dated the 2nd September 1947 sanctioning an estimate for Rs 16,920 as scrutinised by the Chief Engineer for Roads and Buildings, for forming sites in the Kesare Block, Narasimharaja Mohalla, Mysore City as against the estimate for Rs 18,000 submitted by the Chairman, city Improvement Trust Board, Mysore

2 Letter No D2 C 117/46-47 dated the 16th September 1947 from the Chairman, City Improvement Rrust Board, Mysore requesting sanction to the estimate for Rs.18,000 as previously submitted by him, for the work referred to in the G O.read above, as all the works referred to in the estimate have been carried out and the contractors have been fully paid according to the original estimate

3 Un-official note No 279 dated the 6th January 1948 of the Chief Engineer for Roads and Buildings on the subject.

O R D E R N O L 12742-4/M1 38-47-50

Dated, Bangalore, the 22nd January, 1948.

The estimate for Rs 18,000 as submitted by the Chairman, is sanctioned and the rates already paid according to the estimate are also approved, as a special case with the following directions -

1) No work should be authorised for execution on piece work system in contravention of the rules in force
2) Rates higher than the approved schedule for the particular year in which the work is taken up should not be paid, and
3) In all such cases, local quotations should be called for and the work authorised to be executed with competent sanction after fixing reasonable rates based on local quotations
